

## What will tomorrow bring?

Factions are formed by groups of citizens who join together in pursuit of policies that have detrimental effects upon the rights, and lives, of other citizens, or upon the common good.

Many factions are now at work, such as: states' rights, global warming, misogyny, racism, homophobia, economic inequality, anti-science, xenophobia, creationism, and inadequate health care, education, and job pay. The most dangerous of these is global warming.

The older members of our population may not be severely affected by global warming, but people under age 26 will have much to lose. They now hope that they and their children will be able to enjoy long, fruitful, happy lives, but as our planet warms, their quality of life will be sacrificed in a planetary struggle for survival. The youngest members of this group, those still in diapers, may face a heartbreaking decision as they approach 2040. As our climate worsens at an ever steeper rate, those of childbearing age may well look ahead and wonder if it would be fair to bring a child into a world that may be dangerous and suffocating, that may not hold a bright future for a newborn.

Our constitutional system has betrayed us. Because of its design, it enables the formation of factions and gives them power. Fortunately, it can be modified to keep factions from getting or exercising power. This book describes how this can be done, and shows the benefits to society that will result.

By controlling factions, our new Faction-Free Democracy will give each of us equal access to rights, resources, opportunities, and protections that will give each of us a fair and honest chance to go as far as our efforts and talents can take us, and thereby give each of us a fair and honest chance to build long lives worth living for ourselves and our loved ones.

**Now is the time to act—tomorrow may be too late!**

Finishing What the Founding Fathers Started

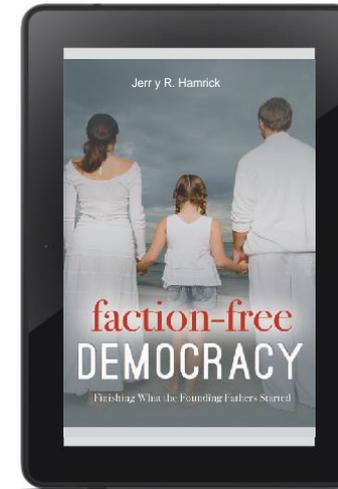

# Design Concept Summary: *Faction-Free Democracy*

Below you will find the design choices made by your designer during the creation of each cover concept, as well as a preview of the cover design(s) on the Kindle Fire and Paperwhite devices.

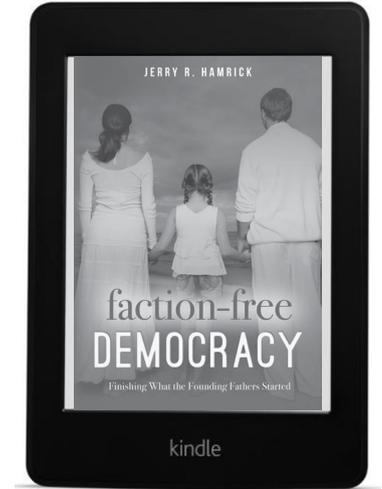

Cover Concept 1: For this cover we have taken inspiration from your profile and back cover text to create a unique book design that focuses on a family staring out into stormy skies. A mix of traditional and bold fonts were used for the title and the overall color scheme speaks to the story. We have included your back cover text and highlighted the first line with a larger font size than the rest.

Kindle Fire

Kindle Paperwhite

NOTE: CreateSpace cannot accommodate spine text on books with a page count of less than 100 pages. Once your final page count is determined, we will remove the spine text from the cover design if your interior has fewer than 100 pages. Spine text is not allowed due our printing specifications on books with less than 100 pages.
